We are a Trust Service Provider

Our business goal is to provide trustworthiness and be a digital witness to our clients and to their customers throughout eSignature and electronic communications.

We have achieved our success within the Trust Service framework thanks to our three business lines.

Our state-of-the-art services

Click & Sign is our cloud based eSignature platform.

We provide our API and also a customized version for big companies.

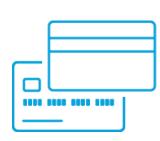

Under eKYC name, we offer a complete framework for Know Your Customer solutions, encompassing features from ID validation to video recorded onboarding.

Openum eIDAS is the cloud based solution for the electronic registered service service compliant to European eIDAS regulation.

Why do they trust us?

- ✓ Our standard solutions fit your needs, not the other way round. But we also have customized solutions.
- Our solutions cover all the Trust Services environment.
- ✓ We have 19 offices around the world and we love travelling.
- ✓ We develop our own technology and we patent it.
- ✓ Lleida.net is a dual listed company in Europe.

Our growth has strong foundations

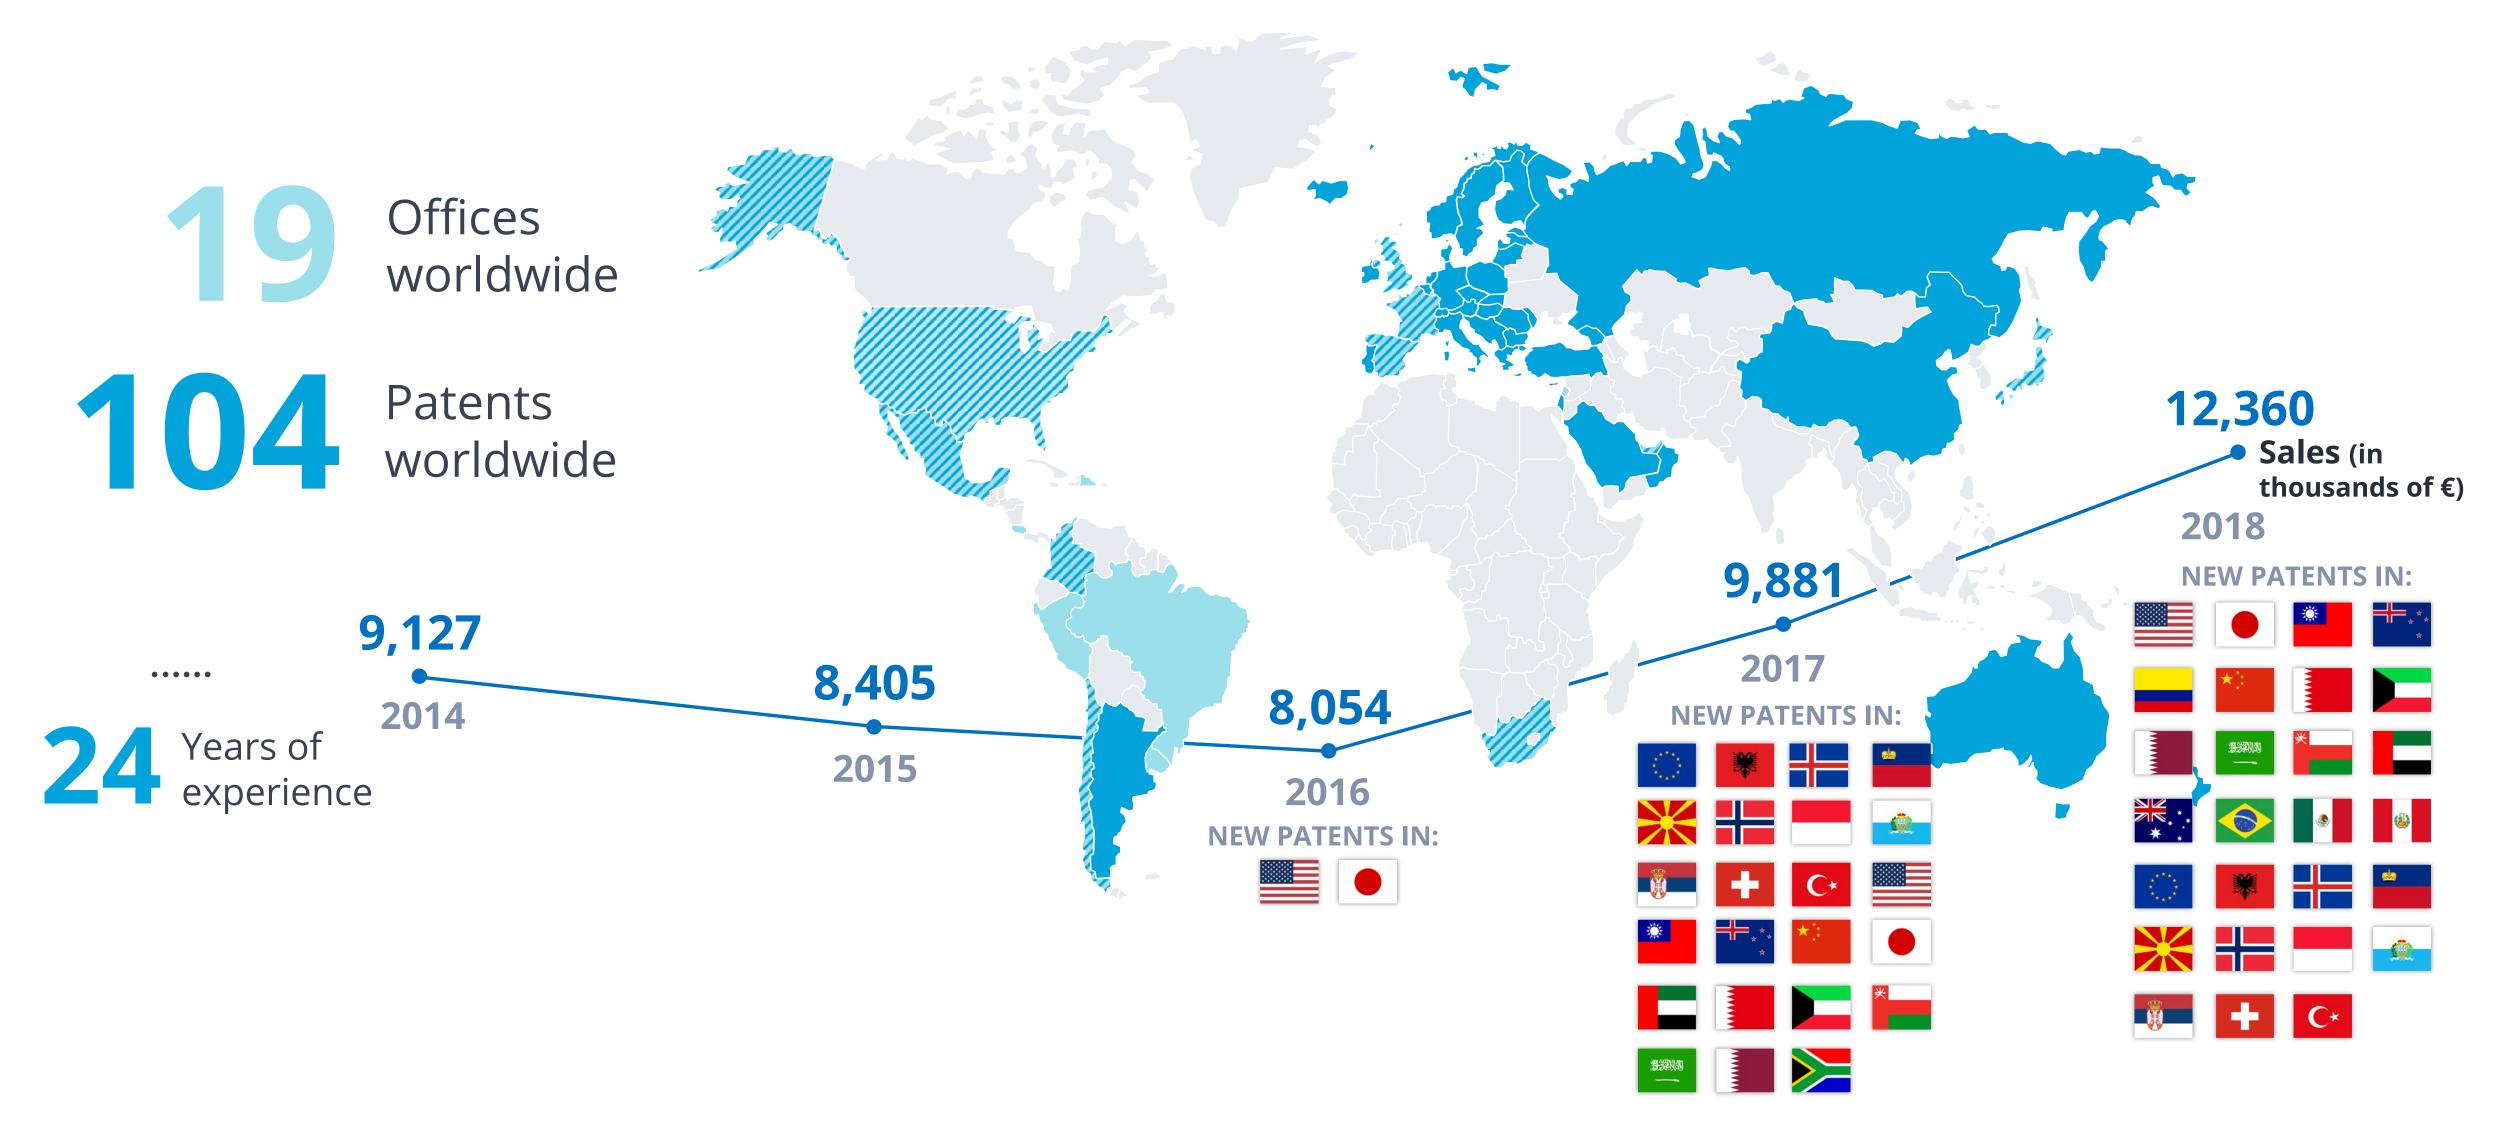

We have not invented the wheel. We honestly believe innovation to be the only way. And we have innovated, we have patented some of these innovations, and we have travelled around the world implementing our solutions.

Some global figures around the world & time

Not only figures

elDAS qualified

Dual listed company

The European regulation for Trust Services.

We are the 1st Spanish company to be eIDAS qualified on electronic registered delivery, and the 6th on Europe.

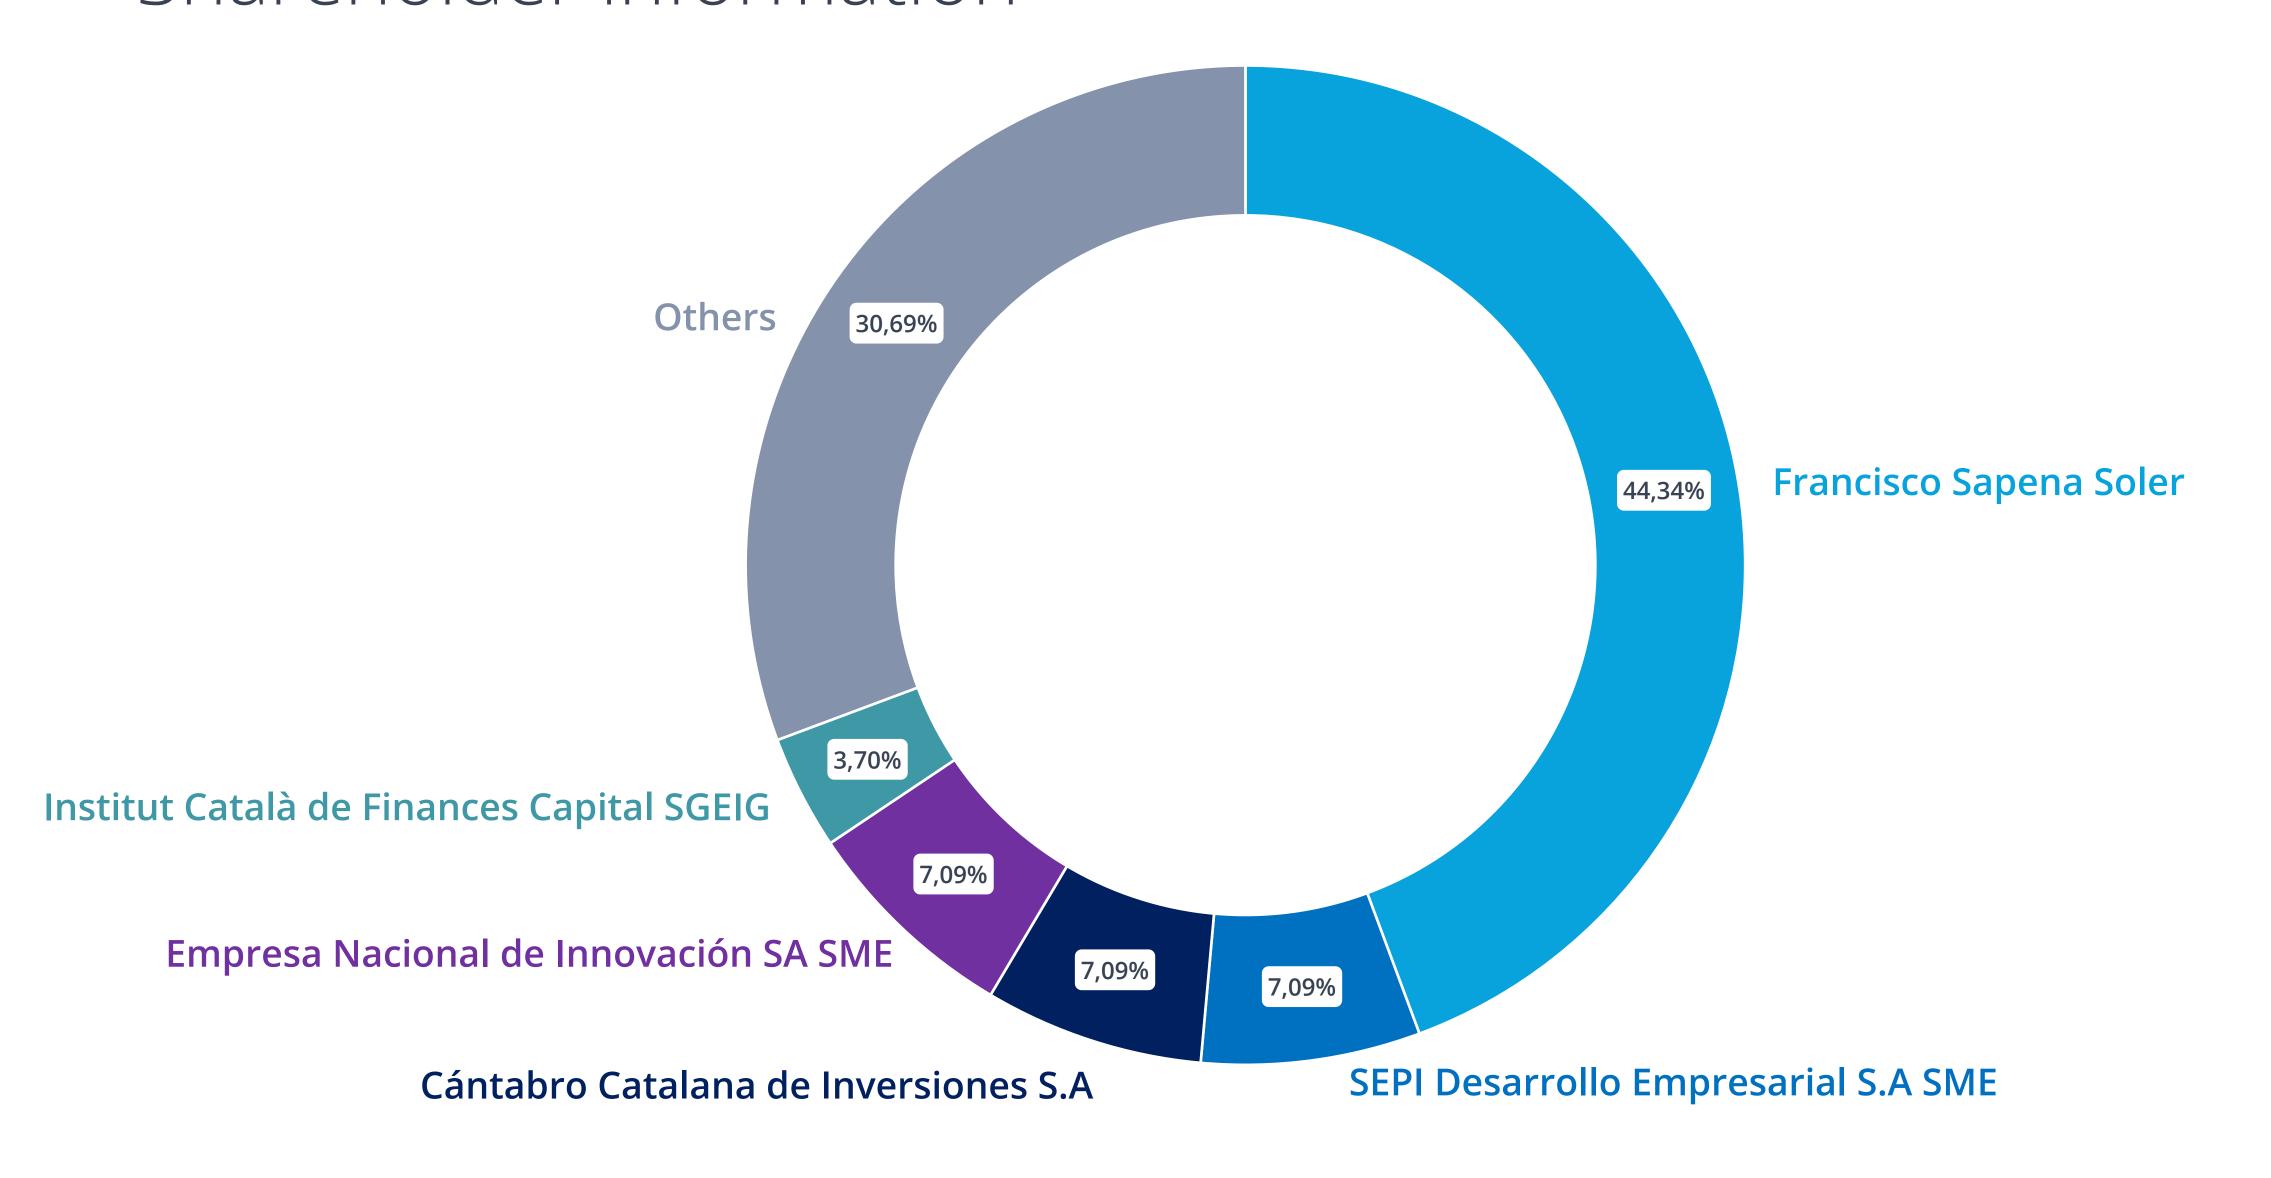

In essence, this means that our electronic signatures are legally valid *de iure* across Europe.

We are the only dual listed company on MAB (Mercado Alternativo Bursátil) and Euronext.

Following our internationalization strategy, we are currently the only dual listed company on Equity Alternative Market (MAB) and on Euronext Growth in Paris.

Market Potential Growth

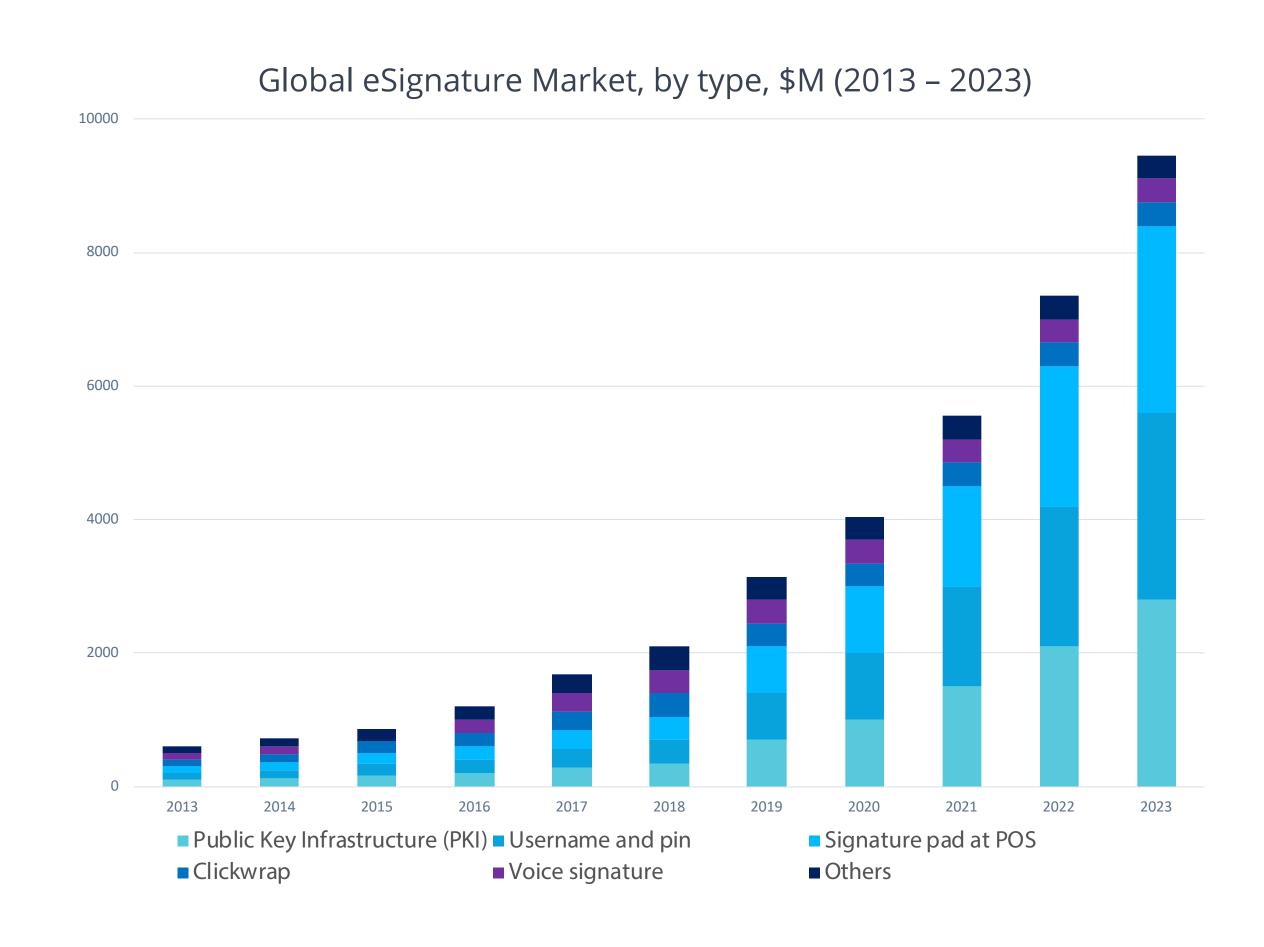

- ✓ There are over 75 countries globally that recognize the legal validity of eSignatures.
- ✓ North America is expected to generate 33% of the global revenue. Lleida.net has four patents in the country: Registered SMS, Registered Email, Registered Contracts, Registered Delivery.
- Legislative support to the eSignature technology is a growth driver taking place in all major markets.
- ✓ Growing security concern, rising government support coupled with rising adoption of advance technology in the developing countries, such as India, China, and Brazil, is expected to boost the demand of eSignature market in the period 2018-2023.

The global eSignature market

From 2020, three market drivers will boost the digital signature business, where Lleida.net is strong and global:

- Increasing demand for security, workflow efficiency and supply chain enhancement in corporates
- Legislative support to the eSignature technology
- Increasing online documentation processes

Notes and forward - looking statements

This document contains statements related to our future business and financial performance and future events or developments involving Lleida.net that may constitute forward looking statements. These statements may be identified by words such as "expect," "look forward to," "anticipate," "intend," "plan," "believe," "seek," "estimate," "will," "project" or words of similar meaning. We may also make forward - looking statements in other reports, in presentations, in material delivered to shareholders and in press releases. In addition, our representatives may from time to time make oral forward - looking statements. Such statements are based on the current expectations and certain assumptions of Lleida.net's management, of which many are beyond Lleida.net' control. These are subject to a number of risks, uncertainties and factors, including, but not limited to those described in disclosures, in particular in the chapter Risks in t he Annual Report. Should one or more of these risks or uncertainties materialize, or should underlying expectations not occur or assumptions prove incorrect, actual results, performance or achievements of Lleida.net may (negatively or positively) vary materially from those described explicitly or implicitly in the relevant forward - looking statement. Lleida.net neither intends, nor assumes any obligation, to update or revise these forward - looking statements in light of developments which differ from those anticipated.

This document includes – in the applicable financial reporting framework not clearly defined – supplemental financial measures t hat are or may be alternative performance measures (non - GAAP - measures). These supplemental financial measures should not be viewed in isolation or as alternatives to measures of Lleida.net' net assets and financial positions or results of operations as presented in accordance with the applicable financial reporting framework in its Consolidated Financial Statements. Other companies that report or describe similarly titled alternative performance measures may calculate them differently.

Due to rounding, numbers presented throughout this and other documents may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.
