Report on limited review of interim condensed consolidated financial statements

To the shareholders of VBARE Iberian Properties SOCIMI, S.A.,

Introduction

We have reviewed the accompanying interim condensed consolidated financial statements of VBARE Iberian Properties SOCIMI, S.A. (hereinafter, “the Parent company”) and its subsidiaries (hereinafter, “the Group”), which comprise the statement of financial position as at 31 March 2021, and the income statement, statement of comprehensive income, statement of changes in equity, statement of cash flows and related notes, all interim condensed and consolidated, for the three-month period then ended. The Parent company’s directors are responsible for the preparation of these interim condensed financial statements in accordance with the requirements of International Accounting Standard (IAS) 34, “Interim Financial Reporting”, as adopted by the European Union, for the preparation of condensed interim financial information. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with legislation governing the audit practice in Spain and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on these interim condensed consolidated financial statements.

Conclusion

Based on our review, that cannot be considered as an audit, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements for the three-month period ended 31 March 2021 have not been prepared, in all material respects, in accordance with the requirements of International Accounting Standard (IAS) 34, “Interim Financial Reporting”, as adopted by the European Union, for the preparation of interim condensed financial statements.

Emphasis of Matter

We draw attention to the accompanying Note 2, in which it is mentioned that these interim condensed consolidated financial statements do not include all the information required of complete consolidated financial statements prepared in accordance with International Financial Reporting Standards, as adopted by the European Union, therefore the accompanying interim condensed consolidated financial statements should be read together with the consolidated financial statements of VBARE Iberian Properties SOCIMI, S.A. and its subsidiaries for the year ended 31 December 2020. Our conclusion has not been modified in relation to this matter.

2.5 Responsibility of the information and use of estimates

The information included in these Interim Condensed Consolidated Financial Statements is responsibility of the Parent Company's Directors.

Notes to the Interim Condensed Consolidated Financial Statements for the three-month period ended 31 March 2021

The preparation of the Interim Condensed Consolidated Financial Statements according to IFRS- EU requires the Parent Company's Directors to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The Board of Directors reviews these estimates on a continuous basis. However, given the uncertainty inherent to these estimates, there is a significant risk that significant adjustments could arise in the future regarding the value of the associated assets and liabilities and significant changes in the assumptions, events and circumstances on which they are based.

In preparing these Interim Condensed Consolidated Financial Statements, the significant judgments made by the Parent Company's Directors in applying the group's accounting policies and the key sources of estimation uncertainty are as follows:

- a) Fair value of Investment property
- b) Corporate Income Tax and the compliance with the requirements of the SOCIMIs
- c) The management of the financial risk and especially the liquidity risk

When determining the information to be disclosed in the Interim Condensed Consolidated Financial Statements or other subjects, the Group, in accordance with IAS 34, has considered the relevant information and materiality in relation with the Interim Condensed Consolidated Financial Statements for the three-month period ended 31 March 2021.

Under "Others" caption the Group records the letting fees incurred for the commercialisation of the properties. These are capitalised within the carrying amount of the leased assets and are recognised as an expense during the minimum lease term, on the same basis as the lease derived therefrom, as established in IAS 40 and IAS 17.

Notes to the Interim Condensed Consolidated Financial Statements for the three-month period ended 31 March 2021

The identification of qualified assets included under this note in accordance with the Article 11 of SOCIMI Law and is included in Appendix 1 to the Interim Condensed Consolidated Financial Statements.

Valuation Process

Investment properties are recognized at fair value, according to IAS 40. The fair value of the Group's investment properties is calculated on the basis of independent appraisers' reports not related to the Group.

Below is the cost and fair value of investment properties at 31 March 2021 and 31 December 2020:

	31 March 2021		31 December 2020	
	Cost	Fair value	Cost	Fair value
Investment properties	51,707	69,250	51,630	69,210

The results recognized in the consolidated interim income statement on measuring investment property at fair value as of 31 March 2021 amounts to Euro 60 Thousand (minus Euro 600 Thousand as of 31 March 2020). According to IFRS 13, some situations may arise where transaction prices may not represent the fair value of an asset at initial recognition.

These investments have been valued following a market value approach, and these valuations have been performed by Savills Aguirre Newman Valoraciones y Tasaciones, S.A.U., an independent expert firm in accordance with the provisions of the RICS Appraisal and Valuation Manual (the "Red Book") published by The Royal Institution of Chartered Surveyors based in England.

The market value is defined as the estimated amount for which an asset can be sold on a given market at the date of valuation between a seller and a willing buyer, being both reasonably knowledgeable about the asset, prudently, free of undue pressure to trade and assuming a reasonable time is given for completing the transaction.

Investment properties measured after initial recognition at fair value are grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

- **Level 1:** Measurements derived from (unadjusted) quoted prices in active markets for identical assets or liabilities.
- **Level 2:** Measurements derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- **Level 3:** Measurements derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (non-observable inputs).

The investment properties measured at fair value as of 31 March 2021 and 31 December 2020 are as follows:

	Level 1	Level 2	Level 3
Investment properties	-	-	69,250
Total 31.03.2021	-	-	69,250
Investment properties	-	-	69,210
Total 31.12.2020	-	-	69,210

Methodology:

a) Discounted cash flows method:

The valuation methodology adopted in terms of determining fair value of currently rented properties is the discounted cash flows method with projected net operating income at 5 years and capitalizing the 6th year at an exit yield between 3% and 6.5% and using an Internal Rate of Return for discounting cash flows obtained between 5% and 7.5%.

Notes to the Interim Condensed Consolidated Financial Statements for the three-month period ended 31 March 2021

The discounted cash flow method is based on predictions of the probable net income that will be generated by assets over a specific time period, taking into account the assets' residual value at the end of that period. Cash flows are discounted at an internal rate of return in order to arrive at the present net value. That internal rate of return is adjusted to reflect the risk associated with the investment and assumptions adopted.

Key variables are therefore net income, approximate residual value and internal rate of return.

Sensitivity analysis

Based on the simulations performed, the impact over fair value of investment properties of a 1% change in the internal rate of return would produce the following impacts:

	Euro thousand			
	Theoretical value			
	31 March 2021		31 December 2020	
	+1%	+1%	+1%	-1%
Valued using discounted cash flows method	66,291	72,362	66,178	76,321
Fair value of investment properties	66,291	72,362	66,178	76,321

Based on the simulations performed, the impact over fair value of investment properties of a 0.25% change in the exit yield would produce the following impact:

	Euro thousand	
	Theoretical value	
	31 March 2021	
	+0.25%	-0.25%
Valued using discounted cash flows method	65,201	73,475
Fair value of investment properties	65,201	73,475

Commitments

The Group has no contractual commitments for the acquisition, construction or development of investment properties or in relation to repairs, maintenance or insurance.

Mortgages

Certain assets include under the caption Investment Properties, whose whole fair value amounts to Euro 69,250 Thousand (Euro 63,091 Thousand as of 31 December 2020) serves as guarantee of the compliance with the obligations arranged as a result of the financing obtained by the Group (Note 8)

4. Analysis of financial instruments

4.1 Analysis by categories

The carrying amount of each category of financial instruments stipulated in the standard "Financial instruments" is as follows:

Financial assets:

	Euro thousand			
	Non-current assets			
	Debt and equity securities		Loans, derivatives and other	
	31/03/2021	31/12/2020	31/03/2021	31/12/2020
Credits and other receivables	-	-	194	214
	-	-	194	214

Notes to the Interim Condensed Consolidated Financial Statements for the three-month period ended 31 March 2021

	Current assets			
	Debt and equity securities		Loans, derivatives and other	
	31/03/2021	31/12/2020	31/03/2021	31/12/2020
Credits and other receivables	-	-	5,452	3,876
	-	-	5,452	3,876
Total financial assets	-	-	5,452	4,090

Under the category of non-current financial assets, the Group recognizes the amount related to the deposits made in the corresponding public bodies derived from leases.

a) Financial liabilities:

	Euro thousand			
	Non-current liabilities			
	Borrowings		Loans, derivatives and other	
	31/03/2021	31/12/2020	31/03/2021	31/12/2020
Loans and payables	24,034	22,024	316	326
	24,034	22,024	316	326
	Current liabilities			
	Borrowings		Loans, derivatives and other	
	31/03/2021	31/12/2020	31/03/2021	31/12/2020
Loans and payables	711	624	386	645
	711	624	386	645
Total financial liabilities	24,745	22,648	702	971

Under non-current financial liabilities, they are recognised the deposits to be returned to the tenants. These deposits will be withheld if the lease rents payable by the tenants to the Group are not paid or there is a breach in the lease contract. Also, under this caption are recorded the loan agreements arranged by the Group (Note 8).

Under Current financial liabilities it is recognised the part of the aforementioned loan agreements with maturity in the short term (Note 8).

4.2 Analysis by maturity

The maturity of the financial liabilities as per the Consolidated Statement of Financial Position as at 31 March 2021 is presented in the following table:

	Euro thousand					
	31/03/2022	31/03/2023	31/03/2024	31/03/2025	Next Years	Total
Bank borrowings	711	874	1,130	1,325	21,008	25,048
Other financial liabilities	-	316	-	-	-	316

Trade payables, group companies and associates	26	-	-	-	-	26
Accruals, wages and salaries	37	-	-	-	-	37
Advances from clients	16	-	-	-	-	16
Total financial liabilities	1,097	1,190	1,130	1,325	21,008	25,750

The total amount does not match with the analysis by categories because the loans that the Group formalized with the different financial entities were accounted at each moment at amortized cost, resulting all the costs incurred in arranging such financing and paid in full, are netting the outstanding debt and they will be amortized during the life of each loan. The amount pending to be amortized as of March 31, 2021 amounts to 303 thousand euros.

Notes to the Interim Condensed Consolidated Financial Statements for the three-month period ended 31 March 2021

The maturity of the financial assets as per the Consolidated Statement of Financial Position as at 31 December 2020 is presented in the following table:

a) Basic earnings per share:

Basic earnings per share are calculated by dividing the profit / (loss) for the period attributable to shareholders of the Parent Company by the weighted average number of ordinary shares throughout the period, excluding the weighted average number of treasury shares held shares throughout the year or period.

Details of the calculation of earnings/(losses) per share are as follows:

Notes to the Interim Condensed Consolidated Financial Statements for the three-month period ended 31 March 2021

	31 March 2021	31 March 2020
Net profit for the period attributable to equity holders of the Parent Company (Euro Thousand)	(201)	(819)
Number of the weighted average shares (excluding own shares)	3,568,827	3,578,688

b) Diluted earnings per share:

Diluted earnings per share are calculated by dividing net profit/(loss) of the period attributable to the owners of the Parent Company by the weighted average number of ordinary shares in the period, plus the weighted average number of shares which would be issued when converting all potentially diluting instruments.

The Group's financial debt is recognised at its amortised cost in the Consolidated Interim Statement of Financial Position

The abovementioned loan agreements contain certain covenants that are customary in the market for facilities of this nature, based on Loan to Value (LTV) and rental incomes over the asset mortgaged. Failure to meet these covenants represents an event of default and may result in, among other things, an acceleration of the loan's maturity and/or may trigger an early amortization event.

At December 31, 2020, the Parent Company defaulted on a ratio of a loan whose outstanding principal at December 31, 2020 amounted to 283 thousand euros. Despite this, the Parent Company received a waiver from said financial entity which exempt its compliance on December 31, 2020. The Parent Company is monitoring such ratio for 2021, but anyway, it is expected the principal amount at December 31, 2021 be close to 0 euros (283 thousand euros at March 31, 2021).
