**BayWa r.e. and Holaluz sign a PPA (Power Purchase Agreement) for a solar park in Spain**

Global renewable service provider, energy developer and distributor BayWa r.e. and Holaluz, the green energy technology company listed on BME Growth since November 2019, have signed a 10-year Power Purchase Agreement (PPA) for a 20 MWp solar park in the Castile-La Mancha region.

This is the seventh solar project for BayWa r.e. developed without any subsidy in Spain. The proposal consolidates Holaluz's position as a leading provider of 100% green energy in the Spanish market.

For Holaluz this agreement is a step more to a 100% renewable world. The company's strong growth rate combined with the current energy crisis derived from price rises in the wholesale electricity market makes it necessary to seek this type of contract in order to ensure price stability to its customers, as well as to guarantee the renewable origin of its energy.

The plan also includes a framework agreement to help Holaluz customers obtain top-quality, reliable energy solutions. These include self-consumption options, electromobility, and financing models, such as leasing and PPAs.

The partnership will enable BayWa r.e. and Holaluz to supply 9,500 new customers of Holaluz with renewable energy.

The terms and conditions of the agreement with BayWa r.e. are those customary in this type of contract.

In compliance with the provisions of BME MTF Equity Circular 3/2020, it is hereby expressly stated that the information provided has been prepared under the sole responsibility of the Company and its directors.
