

MAB KEY INDICATORS. MARCH 2019

## PROEDUCA: fifth company listed on MAB in 2019, leader by size within the Growth Companies segment

PROEDUCA was listed the 8th of March. Its capitalization reaches 223 million euros, being therefore, the largest company in the Growth Companies segment. Providing higher education through the modality of distance education by using its brand "UNIR" is the company core business. Further, the company is intensive in the use of ICT (Information and Communication Technologies), mainly for its creation of online content. [MORE +](#)

### The magazine Economía3 rewards the initiative Pre-Market Environment (EpM) program

The Valencian Economía 3 magazine recognized the EpM training program as "Public Interest Initiative". The EpM is a joint initiative of BME and Big Ban Angels, offering start-ups the chance to gain further insight into the stock market functioning and approach new investors. The main aim is to provide participating companies with the support they need to successfully meet market requirements to seek and obtain financing through capital markets. [MORE +](#)

### Biotechnology companies see the MAB as an ally for their growth

On February 26, the MAB held an informative meeting with the Spanish Association of Biocompanies (ASEBIO). During the event, companies such as Atrys Health (MAB) and Biomar (EpM) explained to the participants their positive experiences on the MAB and in the EpM, respectively. The fact that several companies came to this meeting, reflects the degree of interest shown by companies belonging to the biotechnology sector as they see the MAB as a potential source of financing to expand their businesses. ### MAB companies prepare themselves for regulatory changes

On March 6 was held, in the Madrid Stock Exchange building, the conference about "Regulatory developments susceptible to affect the MAB companies" organized by Baker Tilly Spain with the collaboration of the MAB. This meeting was useful to inform companies about how legislative reforms could affect them and the benefits of implementing a correct governance standard to: (i) generate value within their organization, and (ii) improve stakeholders' relationships.

### Catalan SMEs are interested in alternative funding to grow

On February 28, at the headquarters of the Federación de Empresarios de la Pequeña y Mediana Empresa de Cataluña (small and medium Catalan companies Association) and with the collaboration of CEPYME500, took place a conference, for small and medium-sized (SMEs) Catalan companies, explaining the different modes of obtaining the necessary funding to address growth processes. Jesús González (Managing Director of MAB) participated in a round table highlighting the role of the alternative equity and fixed income markets as an appropriate funding instruments available to SMEs to grow and achieve their strategic objectives.
