

MAB KEY INDICATORS. DECEMBER 2019

The MAB closes a spectacular 2019

If the year 2018 was especially good for the MAB, the year 2019 closed overcoming the milestones registered in the previous year. During 2019 more funding has been raised (1.55 Billion €), the great number of listings has been maintained and the **Ibex MAB 15** and **Ibex MAB All Share** indexes have increased 65.40% and 37.66%, respectively. The “**2019 Market Report**” published by BME details the major highlights reached by the MAB during this year. [MORE +](#)

Grenergy says goodbye to the MAB

Grenergy celebrated the Stock Exchange’s bell ringing on December 16 after having been trading on the MAB since 2015. Throughout this process at the MAB, we have witnessed how a company with an initial size of €30 million has been grown exponentially until multiplying its value by 12. **Grenergy** said goodbye to the MAB with an IPO attracting more than 150 additional investors (40 institutional) and with a valuation close to €400 million. Congratulations **Grenergy**! [MORE +](#)

Making Science is heading towards the MAB

Making Science has announced its intention of going public on the Growth Companies segment of MAB in the coming weeks. With this milestone, the consultancy firm that integrates marketing and technology services aims to boost its brand image, transparency and solvency to the investor community, customers and suppliers, as well as increasing its capacity to access new alternative financing resources for its growth.
