BME Growth participated in the 12th Annual Spanish Capital Markets event

This event, organized by the Association for Financial Markets in Europe (AFME), was held virtually on 24 and 25 February.

BME Growth, through its managing director, Jesús González, participated in a panel specialised in SMEs exchange markets in which it was highlighted the fact of how these markets have been acting as a shield in terms of financing and liquidity for their companies and shareholders in uncertain moments such as the one suffered by the pandemic.

Pre Market Environment, training as a strategic asset

The **Pre Market Environment (EpM)** complements its training program in 2021 by incorporating new partners who will share their experience with EpM companies on current issues such as; ESG indicators, defining a strategy in patents, independent analysis of the companies, the importance of intangible assets in the valuation or why investor relations are necessary.

The EpM' objective is double: to provide companies with the coaching, training and networking necessary to accelerate their growth through capital markets and, on the other hand, to provide as much information as possible on EpM companies to help investors with their investment decisions.
