“Making listing cool again”, 12 proposals from the Technical Expert Stakeholder Group (TESG) on SMEs

In its recent report, the team made up of managers from SMEs associations, investment banks, stock exchanges and specialized investors, proposes some modifications in the regulation so that small companies can jump into “Growth” markets.

Simplifying both prospectus content and market abuse regime for this companies or creating a new category of qualified retail investors are some of those 12 recommendations included in this report.

Further, the report advocates creating a definition of “Small and Medium Capitalization Company (SMC)” that would include to all listed companies with a capitalisation below EUR 1 billion so that they can benefit from various regulatory advantages and financial aid in their financing processes in the stock markets.
