Regulation 1. General.

1. The fees set out herein do not include VAT.
2. All fees are invoiced on a monthly basis, unless expressly stipulated otherwise.
3. The fees stated in basis points are expressed on an annual basis of 365 days.

Regulation 2. Participation and account maintenance.

1. A fee of €300 per month will be charged for the maintenance of the first two accounts associated with each BIC code. The maintenance fee applicable to each additional account will be €150 per month. For the maintenance of the pledged proprietary and individual accounts, or for pledging securities, a fee of €100 per month will be charged.

| Item | Fee |
|---|----------------|
| Maintenance of first 2 accounts | €300 per month |
| Maintenance of additional account | €150 per month |
| Maintenance of pledged proprietary and individual accounts or for pledging securities | €100 per month |

A fee of €300 per month will be charged for each BIC code that does not maintain any associated accounts.

2. A fee of €250 will be charged for each modification of the participant's connectivity profile in T2S.

| Item | Fee |
|----------------------|------|
| Profile modification | €250 |

Regulation 3. Maintenance of the domestic securities register.

1. Securities are considered to be domestic for invoicing purposes, when IBERCLEAR acts as the issuing Central Securities Depository ("CSD").
2. The fee for maintaining the register is set in annual basis points on the cash value of the equity securities registered in the participant's accounts and on the nominal value of fixed income securities.
3. These equity balances are valued using the closing price of the securities at the end of each day. If it is not possible to determine this closing price, the closing price for the previous available trading day is used or, ultimately, the nominal value of the security.
4. When tranches are determined for the maintenance fees, these are applied cumulatively, that is: the balance in the first tranche is subject to the fee for that tranche; the balance in the second tranche is subject to the fee for that tranche; and so on.
5. The registration fee is calculated by summing the balances for all the accounts with the participant's BIC code and applying these to the fee tranches. This involves calculating the average monthly balance for all the participant's accounts, using the balance at the close of each day multiplied by the number of calendar days on which the balance did not change, divided by the total number of days in the current month. This calculation is performed by asset type as defined in the fees, using the result of applying the tranches to this average monthly balance for the participant to calculate the average monthly fee in annual basis points. This average fee is then applied to the balances of each of the participant's accounts. The total for the participant will be the sum of applying the average fee to the average balances of each account for each type of asset.
6. The exchange rate for the last business day of the month, as published on the European Central Bank website, will be used for invoicing issues denominated in currencies other than the euro.
7. When a participant owns over 50% of the shares of one or more other participants, it will have the right to request application of the "Family Concept".

To do this, the maintenance fees for the domestic securities register will be calculated through the aggregation of these participants' balances, applying the average monthly fee resulting from this aggregation to each of them.

The parent will request application by IBERCLEAR of the "Family Concept" for itself and its investees, presenting certification which provides proof of the exact stake it holds in each of them. The parent is required to update this certification each time there is a change in this stake.

If the certification shows evidence of compliance with the participation requirements established above, and it is presented within the first 20 days of the month, the discount will be applied from the first day of the following month. If the certification is presented after the 21st day of the month, the discount will be applied from the first day of the month after that month which immediately follows receipt of the certification.

8. The fees applicable for each type of security will be the following:

a) Private fixed income securities:

| Fixed income | | |
|--------------------|-----------------|-------|
| From | To | BP |
| 0 | 5,000,000,000 | 0.25 |

Regulation 12. Fees for incidents in compliance with information notification obligations to the information system.

1. Any participant or CCP that fails to comply with its obligations to provide information to the Information System (PTI), shall be subject to a fee determined by the ratio of non-compliance represented by the incidents for each type and intended settlement date (hereinafter, ISD), as set out in the following table:

| Incident type | Non-compliance ratio | | | |
|----------------------------|----------------------|--------------|--------------|----------------|
| | 5% - 10% | 10.01% - 20% | 20.01% - 50% | 50.01% |

| Action ownership incidents | €100 per ISD | €200 per ISD | €500 per ISD | €1,000 per ISD |

2. The following criteria will be applied in determining the fees set out in the above table:

- An incident will be deemed to have occurred when trading members and/or participants (including CCPs) fail to notify the following mandatory information to the Information System, in due time and form:
 - + Ownership of trades not belonging to corporate actions.
 - + Ownership of transactions belonging to corporate actions.
- A non-compliance ratio will be calculated for each intended settlement date, representing incidents expressed in the number of transactions, in the case of ownership. This calculation shall be performed for each type of incident detected.
- The incidents identified in the System on the last business day of the notification period established by the Information System (i.e. ISD+6) will be used as the benchmark.

Each type of incident shall be treated separately: costs for two or more concepts may apply for a single intended settlement date.

3. - The types of incidents shall be as set out in section 2 above and shall be dealt with on the last business day of the notification period established by the Information System, i.e. ISD+6.
 - To this end, the benchmark for the calculation shall be a calendar month, considering that the first and last business days of the month shall correspond to an ISD+6.
 - The number of business days on which incidents are registered in the System shall be determined for each month, and the fee shall be calculated based on these.
 - Each type of incident shall be treated separately: fees for two or more concepts may apply for a single intended settlement date.

ARCO SYSTEM Fees for Issuers

23/03/2021

Please note that only the Spanish version of this Circular produces legal effect. Any translation is provided for commercial purposes only.

Please note that only the Spanish version of this document produces legal effect. Any translation is provided for commercial purposes only.

Regulation 1. General.

1. The fees set out herein do not include VAT.
2. All fees are invoiced on a monthly basis, unless expressly stipulated otherwise.
3. IBERCLEAR reserves the right to request the provision of funds before providing certain services.

Regulation 2. Annual fee.

1. Every issuer that designates IBERCLEAR as the entity responsible for its book-entry register will be charged an annual fee of €500.
2. The fee set down in this Regulation will be charged in January. If the issuer registers during the course of the year, the fee will be charged proportionally.

| Item | Fee |
|-------------------|------|
| Participation Fee | €500 |

Regulation 3. Register Inclusions and Exclusions.

1. As a general rule, all equity securities included in the Register for any reason will be charged a fee of 0.4 basis points of the cash value of the inclusion, subject to a minimum of €500 and a maximum of €50,000 per issue.

| Item | Fee |
|------------------|-------|
| Equity inclusion | 0.4BP |

For the purposes of determining the basis on which this fee will be calculated, the total cash value of the issue will be considered to be the most representative value of the security being registered.

By way of example, the following are some possible ways of determining the total cash value of the issue: that calculated at the unit price at which a public offering is made, when the book entry in the Register is the result of the forthcoming admission to trading of the security in an official secondary market or multilateral trading system; that calculated at the unit price of the disbursement for the public offer for subscription of the security being registered; that calculated at the unit countervalue, including issue premiums, in the case of capital increases for a security that is already registered; the nominal value of maximum by-law mandated capital in the case of initial registration of open-ended collective investment schemes; etc.

In the absence of a precise reference price to provide a basis for calculating the total cash value of the issue being registered, this is calculated on the basis of its weighted average price in its first day of trading on an official secondary market or multilateral trading system.

In cases where there are differences between the time of book entry and determining the price to be used as the basis for calculating cash value, IBERCLEAR may divide the invoicing of the fee into two parts: an initial part at the time of the registration, applying the fee to the nominal value registered; and a second part as soon as the reference price is determined, complementing the interim amount billed in the initial bill so that the fee is effectively applied to the corresponding cash value.

Open-ended collective investment schemes (SICAV), the investment funds admitted for trading on the BME MTF Equity and collective investment schemes (CIS), hedge funds and funds of funds (FOF) listed on the BME MTF Equity will be exempt from this fee.

2. The inclusions of fixed income securities in the Register will have a cumulative fee applied to them according to the number of issues carried out during the year. In other words, if the number of issues falls within the first tranche, the amount corresponding to that tranche applies for each issue, when the number of issues exceeds the first tranche the amount of the next tranche will be charged, and so on.

| Tranches | Fee |
|----------|--------|
| 1 - 5 | €1,500 |
| 6 - 10 | €1,000 |
| 11 - 25 | €750 |
| + of 25 | €500 |

- 3.** All total and partial inclusions and exclusions for the book-entry registration of issues of warrants, certificates and similar securities, increases of warrant issues and the registration of warrant issue prospectuses will be charged **with a fixed fee per issue and a variable fee** based on the number of actions that take place over a calendar year, as follows:

| Item | Fee |
|----------------------|--------|
| Issuance of warrants | 1.000€ |

| N° of actions (annual): <i>Inclusions + increases + prospectus registrations + exclusions</i> | |
|--|---------------------|
| Tranches | Fee per ISIN |
| 0 - 1,800 1-200 | 100€ 70€ |
| 1,801 - 3,300 201-500 | 90€ 65€ |
| 3,301 - 5,300 501-1,000 | 75€ 55€ |
| 5,301 - 8,300 1,001-2,000 | 58€ 45€ |
| 8,301 - ... 2001 and higher | 50€ 35€ |

Each scale is applied cumulatively. In other words, if the number of actions falls within the first tranche, the amount corresponding to that tranche applies; each action exceeding the upper limit of the first tranche will be charged as per the second tranche, and so on.

~~At the request of the issuers, turbo warrants that have not been admitted to trading on reaching maturity, and those admitted for trading where the price of the underlying asset reaches the predetermined or barrier price at the start of trading in the session at which they are admitted for trading, are exempt from this fee.~~

- 4.** A fee of €300 will be charged for registration of the promissory note issue prospectus.
